GeoTrust® True BusinessID

Business-class SSL—only better. When it comes to selecting SSL security for your business, you have a lot of choices. With GeoTrust, the decision is easy. GeoTrust® True BusinessID SSL certificates let your customers know that your site is trustworthy and that you take their security seriously enough to get your SSL from a security company. For an affordable price, our friendly security experts will make getting your certificates fast and convenient.

We give you more than just encryption. With True BusinessID, you get business identity validation, universal browser support (more than 99%), and fast issuance. You can also use your certificate on an unlimited number of servers and you get free reissues. GeoTrust SSL is a cost-effective way to secure multiple domains, IP addresses, sub-domains, unified communications (UC) and office communication server (OCS) environments with one certificate. With GeoTrust, your certificate goes further.

No time to manage SSL? No need to worry. We want to save you time and effort so we've made it quick and convenient to manage your certificates with our GeoTrust End User Portal.

We're always here to help. Trust isn't just part of our name—it's in everything we do, including the support we provide to our customers. Online security is our core focus, so if you have a question, you get help from security experts, not internet generalists.

Is True BusinessID right for you? If you can answer yes to any of these questions, then it's time to get True BusinessID for your business:

- Do you need to assure your customers that your web site is legitimate and secure?
- Do you need to protect confidential customer information or transactions on your web site?
